

Second Symposium on the Ocean in a High-CO₂ World

The Scientific Committee on Oceanic Research,
the Intergovernmental Oceanographic Commission of UNESCO,
the International Atomic Energy Agency,
and the International Geosphere-Biosphere Programme
are planning a second Symposium
on the Ocean in a High-CO₂ World.

**The symposium
will be held in
Monaco on
6–8 October 2008**

**Registration and
abstract submissions
will be possible
starting 31 March 2008**

**The symposium will feature invited and contributed
oral and poster presentations on the following topics:**

- scenarios of ocean acidification
- effects of changes in seawater chemistry on nutrient and metal speciation
- ocean carbon system from deep-time to the present to the distant future
- palaeo-chemistry
- mechanisms of biocalcification
- impacts on benthic and pelagic calcifiers
- physiological effects, from microbes to fish
- adaptation and (micro)evolution
- fisheries, food webs, and ecosystem impacts
- biogeochemical consequences and feedbacks to the Earth system
- economic consequences
- CO₂ disposal

**Information about the meeting will be posted at
www.ocean-acidification.net, as it becomes available.**

**For additional information, please contact James Orr (J.Orr@iaea.org)
or one of the sponsors' representatives:
Ed Urban (Ed.Urban@scor-int.org)
Maria Hood (m.hood@unesco.org)
Wendy Broadgate (wendy@igbp.kva.se)**
